### **Pharma Packaging Solutions Has Expanded Its Bottle Filling Capacity**

**Norris, TN** – Pharma Packaging Solutions (PPS), a contract packager for the pharmaceutical and healthcare industries, has a new bottle line, designed to provide the company’s clients with highly efficient and flexible bottle filling capacity. This packaging line supports quick change-overs and custom packaging on smaller batch sizes.

The new line uses channel filling technology and features elements such as topsert applications, efficient line clearance design, pack out variability, and in-line vision systems. The specific technology on this bottle line offers more efficient and customizable output, decreasing customer waste and increasing fulfillment turnaround. “Customers can have it any way they want it!” said Jay Phillips referring to the new line’s wide range of container-closure combinations.

“We are pleased to introduce our newest bottle line and determine how we can best serve our current business partners, as well as other pharmaceutical and healthcare industry professionals”, said Scott Garverick, VP Business Development, Pharma Packaging Solutions.
